## CAREER OBJECTIVE

---

### Objective:

Aspiring software developer with hands-on experience in full-stack development, web applications, and project collaboration. Seeking to leverage my skills in JavaScript, Node.js, and MongoDB to contribute effectively to MAAG's technical projects.

## PROFESSIONAL EXPERIENCE

---

### WebDevelopment internship at VeriTech

Pune, India | May 2024 – June 2024

- Contributed to full-stack web development projects, enhancing my expertise in HTML, CSS, JavaScript, and the MERN stack.
- Designed and implemented user interfaces, created REST APIs, and collaborated with a team to solve real-world development challenges.
- Gained hands-on experience in agile project workflows, code versioning, and bug tracking.

### GirlScript Summer of Code Participant

Remote | May 2024 - August 2024

- Contributed to open-source projects, collaborating with a global community of developers.
- Developed and optimized features, resolved issues, and enhanced project functionality using [specific technologies or languages used, e.g., JavaScript, Python, HTML, CSS].
- Worked closely with mentors to learn best practices in code review, version control, and project management.
- Gained experience in agile workflows, and improved proficiency in [mention any relevant tools like GitHub, REST APIs, etc.].

## PROJECTS

---

### i) WanderLust (The rental Property) 🌐

Frontend: HTML, Bootstrap, JavaScript, EJS | Backend: Node.js, ExpressJs | DataBase: MongoDB

- Developed a platform that connects buyers and sellers in the real estate market.
- Implemented user authentication with Passport.js, secured profiles with OTP (2FA), and added a Q&A AI tool for customer inquiries.
- Created an interactive map feature for easy navigation, along with rating and review options for property listings.

### ii) Weather App 🌐

Technologies: Weather-API, HTML, CSS, JavaScript

- Designed a responsive weather application with real-time data updates for various cities.
- Integrated dynamic background changes based on weather conditions, improving user experience.

### iii) Online Courses Platform (Clone) 🌐

Technologies: HTML, CSS, JavaScript, Bootstrap

- Built an online course platform replica with interactive features like dark-light mode toggle, dynamic text, and real-time counters and many more features.

## SKILLS

---

- Languages: Java, JavaScript, Python
- Frameworks: React.js, Tailwind CSS, Bootstrap
- Databases: MongoDB, MongoDB Atlas, SQL
- Tools: Git, GitHub, REST APIs, Node.js, Express.js

## CERTIFICATES

---

### Web Development 101 [↗](#)

Complete Getting Started with JavaScript By pupilFirst.

### Fundamental cyber security [↗](#)

Complete fundamental of cyber security course organized by spce.
